

Floating Shelf Installation Instructions

(FSHLFxx)

1. Locate desired position of floating shelf cleat on wall. Recommend an installation that allows for drilling into two studs, minimum of one.
2. Attach cleat to wall with provided installation screws. For a more stable attachment, use two screws at each attachment point. See Figure 1
3. Slide the Floating Shelf sleeve over the cleat. See Figure 2
4. To secure the sleeve to cleat, screw down through sleeve into cleat, or from bottom up into cleat. See Figure 3
