

Mirror with Pullouts Installation Instructions (BCMIRRORSPXX)

1. Front mirror frame is attached to unit with keku clips. Remove mirror frame from unit by gently applying pressure and sliding frame up, releasing keku clip attachment. See Figure 1
2. Remove side pullouts, release clips on top and bottom . See Figure 2
3. Attach unit to wall by screwing through back into wall studs. Recommend a minimum of 4 installation screws.
4. Re-insert side pullouts.
5. Install mirror into mirror door by removing the back panel , inserting mirror, then re-attaching back panel. See Figure 3
6. Re-install mirror door on unit, line up keku clips on mirror door to unit and slide down to engage.
