I-432-TRI-1012

Fig 1

Step 1. Measure scribe rail thickness and length per your specific cabinetry. See Fig 1

Step 2. Install upper and lower scribe rails to filler pullouts using small finish nails or brads. See Fig 2. **Note:** Align scribe rails with front edge of filler pullouts. Align scribe rail to upper section of base cabinet lower mounting strap or lower section of wall cabinet lower mounting strap. See Figs. 3a-b.

Base Cabinet

Bottom Scribe Rail is nailed to edge of bottom section

Fig 4a

Fig 4b

Step 3. (Base Cabinets). Pre-drill 3/16 inch holes 3/8 inch down from top of cabinet and also 27-3/4" down from top of cabinet. (See Fig 4a-d). Repeat with other adjacent cabinet.

From inside the adjacent cabinet screw the 432 to cabinet top.

Fig 4c
Wall Cabinet

Screw 432 to cabinet bottom from below adjacent cabinet.

Fig 5a

Fig 5b

Step 4. Mount filler cabinet pullout to adjacent cabinet See Fig. 5a-b

Fig 6

Screw 432 to cabinet top from above adjacent cabinet.

Fig 4d
Base Cabinet

From inside and above the adjacent cabinet floor screw the 432 to cabinet bottom.

Fig 7

Step 6. Remove front mounting strap. See Fig 7.

Fig 8

Fig 9

Step 7. Attach face frame and onlays (not provided) See Fig. 8-9

Étape 2. Attacher le rail tampon aux éléments coulissants du module avec de petits clous à finition ou à tête perdue. Voir la figure 2. **Remarque.** Aligner les rails tampon sur le rebord antérieur de l'élément coulissant du module. Aligner le rail tampon sur les sections supérieures de la bride de montage inférieure de l'armoire de base ou la section inférieure de la bride de montage inférieure de l'armoire murale. Voir fig. 3a-b.

Fig 2

Fig 1

Étape 1. Mesurer l'épaisseur et la longueur du rail tampon de l'armoire à modifier. Voir la figure 1.

Fig 3a
Armoire murale

Le rail tampon supérieur est cloué au rebord inférieur de la section du haut

Fig 3b
Armoire de base

Le rail tampon supérieur est cloué au rebord inférieur de la section du haut

Le rail tampon inférieur est cloué au rebord de la section du bas

Fig 4a

Fig 4b

Étape 3 (armoires de base). Préforer des trous de 5 mm (3/16 po) à 10 mm (3/8 po) du haut de l'armoire et également à 70,4 cm (27-3/4 po) du haut de l'armoire. (Voir fig. 4 a-d). Reprendre l'étape avec l'autre armoire adjacente.

Armoire de base
Le rail tampon touche le cadre avant

Fig 5b

Étape 4. Monter le module coulissant sur l'armoire adjacente 1. Voir la figure 5 a-b.

Fig 6

Étape 5. Monter le module coulissant sur l'armoire adjacente 2. Voir la figure 6.

Fig 7

Étape 6. Enlever la bride de montage frontale. Voir la figure 7.

Fig 4c Armoire murale

Visser le haut de l'armoire 432 à partir de l'intérieur de l'armoire adjacente.

Visser le bas de l'armoire 432 à partir du bas de l'armoire adjacente.

Fig 4d Armoire de base

Visser le haut de l'armoire 432 à partir du haut de l'armoire adjacente.

Visser le bas de l'armoire 432 à partir de l'intérieur et au-dessus du fond de l'armoire adjacente.

Fig 8

Fig 9

Étape 7. Attacher le cadre avant et les pièces apposées (non fournis). Voir les figures 8-9.

Paso 2. Instale los rieles ajustables en los armarios de relleno deslizantes utilizando clavos para acabado o puntillas. Ver la figura 2. **Nota:** Haga coincidir los rieles ajustables con el borde delantero del armario de relleno deslizante. Alinee el riel ajustable con las secciones superiores de la banda de montaje inferior del armario-base o la sección inferior de la banda de montaje inferior del armario de pared. Ver las figuras 3a-b.

Fig 2

Fig 1

Paso 1. Mida el grosor y la longitud de los rieles ajustables para sus armarios particulares. Ver la figura 1.

Fig 3a
Armoire de pared

El riel ajustable superior se clava al borde de la sección superior

Fig 3b
Armoire-base

El riel ajustable superior se clava al borde de la sección superior

El riel ajustable inferior se clava al borde de la sección inferior

Fig 4a

Fig 4b

Paso 3 (Armarios-Base). Taladre orificios de 3/16 pulg. a 3/8 pulg. y 27-3/4 pulg. por debajo de la parte superior del armario. (Ver las figuras 4a-d.) Repita el proceso en el armario contiguo.
